

Youth Advisory Council

What is the Youth Advisory Council?

Maryland Coalition of Families (MCF) has partnered with the Prince George's County Health Department to create a youth advisory council in Prince George's County.

What is the goal of the Council?

The Council's goal is to provide a safe place for youth to discuss topics surrounding mental health, substance abuse, and peer relations, while empowering them to become advocates in representing the youth voice within our county. We will strive to educate, help reduce stigma, and increase youth behavioral health awareness within the communities in Prince George's County.

Who can be a part of the Council?

The Council is looking for youth between the ages of 18 - 29. We encourage youth who have experienced mental health and substance abuse challenges to become a part of the Council.
