# Our Healing Hearts Support Group

*for parents who have lost a  
child to overdose*

Child loss to substance overdose is a unique and isolating situation. We are a grief support group, that meets monthly, for any parent coping with this heartbreaking experience.

Because we have been in your situation, we can provide a nonjudgmental, safe space to share experiences and offer peer support and understanding. Join us to share, learn, listen, and be heard. You are not alone. For more info, contact Beth Schmidt at 202-573-6773 or [bschmidt@mdcoalition.org](mailto:bschmidt@mdcoalition.org)
